

## MEETING OF GLOBAL GROUP

Thursday 28<sup>th</sup> September 2023

### Present:

Andreea Ivanov, Andrea Clusen, Jeannie Kelley, Wolfgang Weise, Jannie Crossen, Cheryl Drake-Bowers, Joy Carey, Sarah Nelson, Michelle Baracz, Jan Trewartha, Hans-Ulrich Straub (Uli),

**Minutes:** Jan Trewartha, edited AC

**Date for next Zoom meeting of Global Group** – Thursday 11<sup>th</sup> July '24 18.00 Berlin/Amsterdam time

**Date for next Sharon's Teachers in-person Meeting** – proposed to be in Graz in October 19<sup>th</sup> and 20<sup>th</sup>.

Andrea C discussed the Round Table group – a small group of people who are happy to be involved in the decision making process. Anyone else is welcome to join this group. In the image this group is at the center, teachers and other sub groups are in the first circle, participants, interested people, scientists... are at the outer circle. From center to first circle people can join in to the center, whenever they wish. Dates for these meetings are published in the „teacher's corner" on the Sharon Wheeler . Com website.

The group responded to this, acknowledged the invitation to register on the new website, and were positive about the structure suggested (round table).

With universally positive response, we agreed to create a description of the Round Table/center group concept for general understanding. This description will be prepared in the next „round table meeting".

### New website:

Wolfgang asks for content – videos, before and after photos, stories etc. from practitioners. Helpful content for other teachers.

Learning platform to be accessed by a fee payment. Teachers can share material with their classes. The Video Archive might be located there (linked from the SW-website to the Archive). This is very much in the future.

The Learning platform is called *Platform Essentials*: register, create own class, set a fee and subscribers pay the fee and a small share goes to platform owners to make it happen, rest goes to teacher. This can be used for additional information for already certified SW practitioners, it is not replacing the basic 4 day in person ScarWork classes. For example: Heike's science presentations and other teacher's presentations.

**Sharon** plans to make more full session videos such as the one created for the UK Gathering last Sunday. The quality was very high.
